November 25, 2020, 5:30 p.m. (ChST)

**109th COVID-19-Related Fatality Reported;
Results: 50 Test Positive for COVID-19**

109th COVID-19-Related Fatality Reported

The Joint Information Center was notified that Guam's 109th COVID-19-related fatality occurred at the Guam Memorial Hospital (GMH) at approximately 11:02 a.m. The patient was a 65-year-old male with underlying conditions that were further compounded by COVID-19. He was admitted to GMH on October 22, 2020 and was a known positive case.

"There is no pain like losing a loved one. To his family and friends, please accept our condolences and sympathies," said Governor Lou Leon Guerrero. "As we lose more and more of our neighbors to COVID-19, we cannot become numb to the news. These people are more than numbers--they were friends, co-workers, siblings, parents, children. They are more than the illness they succumbed to. So it is our duty, our responsibility to keep each other safe. Our vigilance is the only vaccine we have."

Results: 50 Test Positive for COVID-19

To date, there have been a total of **6,705** officially reported cases of COVID-19 with **109** deaths, **1,639** cases in active isolation and **4,957** not in active isolation.

Of these 50 cases, 19 cases were identified through contact tracing. One (1) case reported recent travel and was identified in quarantine.

As of November 25, 2020, the COVID Area Risk (CAR) Score is **6.8**. The CAR Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. An ideal CAR Score for Guam would be 5.0 and below. To learn more about the CAR Score, visit [Strive for Five](#).

The following tables provide COVID-19 test results reported to the Joint Information Center on Wednesday, November 25, 2020 and reflects results from Tuesday, November 24, 2020:

COVID-19 CASE COUNT	TOTAL	NEW CASES REPORTED TODAY	PAST 7 DAYS
